

THE WRANGELL SENTINEL

VOL. XIX. NO. 19

WRANGELL, ALASKA, THURSDAY, MAY 6, 1920

PRICE TEN CENTS

News by Cable Today From All Over the World

SEATTLE—The hearing of the advisory committee appointed by Secretary Payne to investigate Alaska conditions will be opened in Seattle tomorrow. The aim of the hearing is to form a basis for a direct Alaska policy of government.

SAN FRANCISCO — Hiram Johnson has defeated Herbert Hoover in the presidential preference primaries by about 50,000.

INDIANAPOLIS — General Wood is leading Johnson in Indiana primaries by about 5,000. Lowden is a distant third with Harding fourth.

WASHINGTON — Declaring that the President preferred to keep the country in an alleged state of war rather than abate one jot or tittle of full measure, his isolated will has set for the nation, Senator Knox opened the debate on the peace resolution. "The welfare and safety of the nation imperatively demand that we know we have peace; the whole world seethes with revolution and our own nation is in ferment and turmoil," he declared.

THE HAGUE — Horses, carriages and harness belonging to the former German emperor, including a set of gold mounted harness presented to him by the Pope, are offered for sale in a display advertisement in the Handelsblad.

NEW YORK — At a meeting of the Paper Manufacturers Association held here it was decided to grant the demands of the paper mill workers for an increase of wages of 20 per cent. This will mean that the price of paper will become even more exorbitant. However, the paper mill owners thought it was better to keep on producing paper regardless of the price, rather than face a strike of the paper mill workers which would have had the result of forcing two thirds of the newspapers in the United States to suspend publication.

LOS ANGELES — Bluebeard Huirt is back from pointing out the grave of one of his five murdered wives after having escaped mob violence when there were wild cries of "Lynch him! shoot him!" etc.

PARIS — Mayor Maestre in two hours married 65 couples, which is the world's record for matrimonial speed.

NEW YORK — Alfredo Salsebo, who confessed to being one of the leaders in a plot to bomb the homes of several prominent and leading men last June, jumped to his death today from the fourteenth floor of the Park Row building.

CHICAGO — The Staats Zeitung the leading German daily of the state of Illinois, has suspended publication, giving as the reason the shortage of paper. The Staats Zeitung states that it will resume publication as soon as the present paper crisis is relieved.

WARSAW — Polish forces have occupied Kiev according to extra editions of several newspapers. General Pilsudski, president of the Polish State, led the troops into the city. The Bolshevik forces backed up against the Dnieper river and made a futile effort to resist the Polish Ukrainian efforts to take Kiev.

WRANGELL CO-OPERATIVE ASSOCIATION

Will Be Ready for Business
Next Monday

The Wrangell Cooperative Association is a new organization that is being formed which promises to do much toward attracting many fishermen to make Wrangell their headquarters. The organization is composed of union fishermen who will ship their own fish direct to the markets, thus eliminating the middlemen. The business of the Association will be under the management of Captain K. J. Johansen.

A scow with a 40-ton capacity arrived Tuesday from Port Conclusion, having been bought from Jacob Johnson of Petersburg and the new company will be ready to receive fish next Monday.

High School Commencement

Announcements of the high school commencement are being sent out this week to all the patrons of the school and others. If anyone interested has been overlooked, announcements may be obtained from Miss Crosno, principal of the school. Everyone is invited to attend the various exercises incidental to the first high school graduation whether an announcement has been received or not.

Lloyd Meyers, who left here during the war to enter military service returned to Wrangell on the City of Seattle. Since his discharge from the army a year ago, Mr. Meyers has been living in California which is his native state.

Jack Skelton Sees His First Airplane

When the hydroplane of the Oregon-Washington-Idaho Airplane company flew over Tongue point Saturday, employees of the Hammond Lumber company were returning from their work after lunch. Jack Skelton, late of Thane, Alaska, was among them, and on hearing the hum of the airplane motor he said to himself: "I wonder why they are running the planer at this hour." With that he happened to glance at his companions and noticed them craning their necks heavenward. He did likewise and to him there appeared a new and wondrous spectacle—his first airplane.

So fascinating was this huge bird that he had no thought for the insignificant vehicles of terra firma and narrowly escaped being run down by an automobile, in consequence.

Though this was his first glimpse of a heavier-than-air machine propelling through the air, Mr. Skelton is a member of the Aero Club of America, having passed the requisite entry examination while in Alaska, where he has lived for the past eight years.

Mr. Skelton has shot moose in Alaska, grizzly bear on the Aleutian islands, Rocky mountain goats in the Wrangell mountains, mountain sheep on the tributaries of the Yukon, mined gold in Siberia, was a bunk-mate of Rex Beach in the early gold rush of the Klondike, has attended Harvard University, gone sight-seeing in London and Paris, and has dined on roast elephant's feet in South Africa, where he was at one time interested in a rubber concession, but it remained for him to come to Astoria to see his first airplane in motion.—Astoria Exchange.

Carranza to Be Ousted Is Plan of Factions

WASHINGTON — President Carranza is to be ousted May 15, and Alfredo Robles Dominguez will be chosen president pro tempore of Mexico under agreements just reached by various factions, according to private advices received in Washington from authentic sources across the border.

MEXICO CITY—Unable to get under way any offensive military expedition against the revolutionists President Carranza is using aeroplanes to harass rebel towns in the neighborhood of the Mexican capital.

NEW YORK—Six destroyers, accompanied by the tender Black Hawk sailed for Key West for possible duty in Mexican waters, yesterday afternoon.

EL PASO, May 4—Villa has broken with the Rebels just as the Mexican Revolution was getting nicely started with the Revolutionists in control of practically all of northern Mexico and as they were preparing to launch a united drive southward to Mexico City. Villa has started a little revolution all of his own along the Durango-Chihuahua State line.

MEXICO CITY—"It is my duty to crush the rebels and I will not cease my efforts until I have achieved that purpose," Carranza said in his first official pronouncement on the insurrection situation. "It must be known that when fighting begins it is my obligation to deliver the power of a nation to a president elected in a peaceful manner." President Carranza expressed confidence in the government's ability to deal with the situation.

The addition to the C. M. Coulter home is rapidly nearing completion. Mr. Coulter raised the roof of his house, putting in five large rooms upstairs. This makes the Coulter home one of the largest and most desirable places in town commanding as it does, a view giving a full sweep of the bay with all its scenic attractions.

Louis Monson has accepted a position as bookkeeper for the Willson & Sylvester Mill company. For the past two years Mr. Monson has been cannery bookkeeper for the Alaska Fish company at Waterfall. He was sent north again this year for the same position, but by the time he had arrived in Alaska the company had decided not to operate at Waterfall this year.

FAIRBANKS — Influenza is raging at this place. There are 200 cases at the present time, and business is being interfered with. The prevalence of the epidemic had a marked effect on the primary election vote of this section, keeping many people away from the polls.

Paddy Shanahan who shot and killed Assistant District Attorney Steve Ragan last September has been adjudged insane and will be taken to Morningside Sanitarium near Portland.

FOR SALE—An Underwood typewriter. A big bargain at \$50. A new Underwood now costs \$125. Apply at Sentinel office.

FOR SALE—Lot with 50-foot frontage on McKinnon avenue between the residences of G. H. Tozier and Charles M. Binkley. Apply at Sentinel office. 5-6

Navigation On Stikine Opens Next Week

Barrington Transportation Company Well Prepared to Take Care of the Coming Season's Business.

It is expected that the Hazel B No. 4 will leave Wrangell next Tuesday on her first voyage of the season from this port to Telegraph Creek, B. C.

Thirty-five reservations have already been made for this first voyage. The majority of those booked for passage will arrive from the south on the Princess Mary next Tuesday morning.

When seen by the Sentinel reporter last night Captain Sid Barrington stated that he expected to go up the river Sunday as far as the big glacier, and that if he found the river clear of ice that far up he would undertake the voyage to Telegraph Creek, leaving Wrangell Tuesday afternoon.

The popular Hazel B No. 4 which operated on the Stikine last season will see service again this year. Of this boat it is not to be said that it is "as good as ever," but BETTER than ever. The Barrington Transportation company does not stand still. Each year they become better acquainted with the Stikine, and each season they start in better prepared to overcome rapids, riffles and other difficulties. Accordingly, while the Hazel B. No. 4 was in dry dock during the winter, she was converted into a twin screw boat having two tunnels and two engines of 100 h. p. each. This doubling of motive power means that the Hazel B No. 4 is now a boat which for speed and efficiency will surpass anything that has ever gone up the Stikine.

The Hazel B No. 4 is 65 feet in length, having a 16-foot beam. Two tunnels will make it possible for the boat to navigate in very shallow water.

The Hazel B No. 4 was built early in 1919 by the Barrington Transportation company and is surely a marvel in river boat construction. The hull of the boat is built of fir, while the house is constructed of spruce and cedar. One of the chief aims in its construction was lightness. The boards used for the walls of the staterooms are only five-sixteenths of an inch in thickness, but the bracing is so well distributed as to give all needed strength. Another splendid feature is that its bottom will bend up and down with the stream to a certain extent, thereby giving a tremendous advantage over boats possessing more rigidity. And yet, through the rare skill of the builder, it is constructed in such a way that the springing of the hull does not cause the house to become rickety, the quality of elasticity having been maintained throughout in the construction.

The Barrington people do not expect any accidents—they have had none since they went on the Stikine. However, they believe in being prepared for such possible contingencies as more business than can be handled by one boat. Accordingly, the Hazel B No. 3 has also been overhauled, and will be held in readiness as a reserve boat. This means that the Barrington Transportation company can be relied upon absolutely to not only furnish an excellent service the coming season, but also to take care of any increase in tonnage or passenger traffic.

NOTE—Since writing the above

Spokane Due Tomorrow

The Spokane sailed Tuesday afternoon from Seattle with the following passengers for Wrangell: Mrs. Smaketa, Mrs. Edwin Hofstad, Miss Helen Hofstad, Mrs. L. C. Patenaude, Mrs. K. Bennett, Harold Bennett, 14 cannery employees.

Toby Harthun who has been firing on the Fern for the past two months, returned to Wrangell on the Jefferson last Friday.

A business meeting of the Parent-Teachers' Association will be held at the schoolhouse tonight at 7:30 sharp instead of 8 o'clock as announced last week.

The Willson & Sylvester Mill company have been making numerous shipments lately. Yesterday they made a shipment of boxes to Yes Bay and Chomley.

Rikard Hofstad and Conrad Enge who are building a house on the Narrows were in town yesterday. They came for a load of shingles.

Mrs. E. R. Wilcox and two little daughters arrived on the City of Seattle Saturday morning to join Mr. Wilcox who is mining engineer for the Duncan Canal Mining company.

O. A. Larson, superintendent of the cannery of the Anacortes Fisheries company at Shakan, was a visitor to Wrangell the first of the week. Mr. Larson stated that he was planning for a pack of only 40,000 cases the coming season. He says he plans to cut out chums altogether.

Lloyd Dalgity was elected Dictator of the Moose Lodge last Friday night. Mr. Dalgity undoubtedly has the distinction of being the youngest Dictator ever elected in any Moose Lodge in the world, he having been initiated in the order by dispensation when he was only 19 years old.

Mrs. Carl Arola and child left last week for Cloquet, Minnesota to look after property interests there which have been cared for by Mrs. Arola's brother until his death recently. Mr. Arola expects to join his wife in the Fall. Next Spring they will return to Wrangell together.

Mrs. H. C. Carothers of Petersburg was a visitor to Wrangell the latter part of last week.

U. S. Deputy Marshal H. J. Wallace returned on the Jefferson Friday from Ketchikan where he had been on official business.

C. A. Carlson, the well known canneryman of Taku Harbor was aboard the Jefferson Friday and visited with friends in Wrangell while the vessel was in port.

Town Marshal Earl West returned Sunday from Ketchikan where he has been attending court.

we have learned from Ted Sterling that both boats will be pressed into service for the first voyage and probably for the second also.

The following telegram was received in Wrangell this morning.

Telegraph Creek, B. C., May 6, 1920. Captain Sid Barrington, Wrangell.

Tommie Hankin, Dick and Jack Fowler leave this morning. Ice just went out of raffle yesterday. Heavy ice on bars, and water very low; has been freezing nights with high north wind blowing today.

Frank Callbreath.

Harry Wallace Passes Away Suddenly

The people of Wrangell received a shock Wednesday morning when it became known that U. S. Deputy Marshal H. J. Wallace had passed away during the night.

On Tuesday Mr. Wallace appeared to be well and in the best of spirits. He retired Tuesday night with no indication of there being anything the matter with him. A few minutes before 2 o'clock Mrs. Wallace awakened to find that her husband was breathing with difficulty. Physicians were hastily summoned, but before they reached Mr. Wallace's bedside he had passed away.

Harry James Wallace was born in Marshalltown, Iowa, March 10, 1866. He came to Alaska from the state of Montana in 1890. In 1894 he was appointed United States Deputy Marshal at Wrangell. He left here for Dawson at the time of the Klondike rush in 1897. Later he returned to Wrangell, and was married to Miss Laura Amundsen in September 1910. In 1914 he was again appointed U. S. Deputy Marshal, in which position he continued up to the time of his death. He is survived by a widow and several nieces.

Samuel L. Wallace, a brother of Harry Wallace, died in Wrangell, March 13, 1917.

The mother of Harry Wallace resided in Juneau for several years prior to her death and was active in the work of getting an Episcopal Church started in that city.

There is scarcely a person in Wrangell who does not feel a personal loss at the passing of Harry Wallace. Unostentatious benevolence, no malice, and a spirit of good will toward all mankind were qualities that enriched his great big heart of which outward expressions were the very smallest part.

M. O. Johnson has purchased the home of A. K. Rastad on the corner of Greif and Reed streets.

Richard Walberg was a visitor to Ketchikan last week to make application for citizenship.

The Civic Improvement Club will not meet this week as previously announced owing to the continued illness of the president, Mrs. Barnes. The next meeting will be held the last Friday in May with Mrs. O. C. Carlson.

The Vermont arrived in port yesterday with the following well known residents of Token aboard: Superintendent T. H. Burns, Captain Paul Steinbach, and Harry Horn.

Miss Nadre arrived from Seattle on the Jefferson. She left on the Princess Pat for Noyes Island where she will be connected with the Noyes Island Packing company during the coming season.

Mr. and Mrs. Frank Mosher arrived from Seattle on the Jefferson. They left on the Princess Pat for Noyes Island where Mr. Mosher will take a responsible position with the Noyes Island Packing company.

W. A. Crouter of Anacortes arrived on the Jefferson Friday. He left on the Princess Pat for the West Coast. Mr. Crouter is a machinist. During the coming season he will be connected with the Noyes Island Packing company.

Helen Fletcher of the Wrangell Public School Enters Into Correspondence With a Girl in England

The Admiral Inn
Nulley Lane, Riegate,
Surrey, England,
December 9, 1919.

Dear Friend,

As this is the first letter I have written to you I thought, perhaps, you would like to hear about this town. It is situated between the North and South Downs. Reigate has a population of about twelve thousand persons. We are surrounded by low ranges of hills but Reigate hill is about seven hundred and fifty feet high. In the middle of the town is the Castle Grounds, where there used to stand a castle in

which William of Warren lived but nothing is left of the Castle save the caves. In memory of William of Warren a large gate was erected in seventeen hundred and sixty. Reigate has been historical in olden times. Hoping that we shall profit by this correspondence, I am,

Yours Sincerely,

Annie Gunn.

Wrangell, Alaska,
April 27, 1920.

Miss Ann'e Gunn,
The Admiral Inn,
Reigate, England.

Dear unknown Friend:

I don't suppose you have ever been to Alaska so I will tell you a little about it. Alaska is justly famous for its grand scenery. The journey along the Alaskan coast is one of the most wonderful steamboat voyages in the world. There are so many islands, that for a thousand miles the steamers sail between lofty, forest-covered mountain walls, and upon waters whose surface is as quiet as a lake.

Many steamers and Government boats pass through here in the summer with tourists and people who are going up north to work in the canneries.

At present the fishing proves the wisdom of the purchase of Alaska. The catching of seals was the first industry here. One kind of Alaskan seal called the fur seal, has a very fine fur which is highly prized for making muffs and cloaks. They are especially valued for their warmth and beauty and are sent to London to be dressed.

The weather here is not very cold. On Christmas there was no snow on the ground, and we have lots of rain.

As I have not anything more to say, I will close hoping to hear from you soon.

Yours Sincerely,
Helen Fletcher

The Booth Fisheries company in its annual report to its stockholders issued last month showed net returns for last year totaling \$1,433,336; in 1918 returns were \$1,279,000 and in 1917 \$3,380,000.

The killing of sea otter has been prohibited for another five-year period ending November, 1925. Practically no sea otter are found in Alaskan waters outside of the Aleutians and they are scarce there.

Masters, mates and pilots of the Southeastern Alaska coast are preparing a petition to be sent to the Washington bureau of the light-house service asking that more adequate aids to navigation be placed in Sumner and Chatham Straits. The petition cites a long list of marine accidents which have occurred there, including that of the steamship Mariposa. The principal changes desired are that unwatched lights on several reefs be replaced by light buoys with whistle or bell fog signals.

Twenty-two years ago this month the great snowslide occurred on the Chilkoot trail above Dyea, when the lives of 65 persons were snuffed out in a twinkling. A number of others were caught in the avalanche of snow and rocks and carried down the mountainside.

Petersburg Notes

(Petersburg Report)

Forrest McKechnie, 18-months old son of Mr. and Mrs. J. L. McKechnie died last Friday from chronic nephritis.

Gus Bolstad, brother of Mrs. E. P. Refling, died Wednesday evening as the result of a fractured skull, received in a fall at Port Chatham.

Mayor and Mrs. T. S. Elmore will leave on the next southbound trip of the Princess Mary and will spend the next six weeks traveling and visiting their old homes in Maine.

A baby daughter arrived in the home of the editor on Sunday morning. The little miss weighed eight pounds and both Mrs. Perkins and daughter are doing nicely under the care of Dr. Gladys Rowley. This baby makes the 2,017th baby at whose birth Dr. Gladys Rowley has officiated.

The hospital committee report that the sum of \$353 was raised at the basket social and jitney dance given recently for the benefit of that institution.

When seen yesterday one of the members of the board said, "It is the intention of the board to gradually bring the hospital to a point where it will equal institutions in other towns. A sterilizer has been ordered for the building, a heating plant will be installed as soon as possible, some of the rooms will be partitioned off making more private rooms, and other things done which are vitally necessary."

Mrs. Fowler, of Wrangell, has accepted the position of matron and will arrive on one of the next boats.

PROBLEMS FACING STRICKEN WORLD

Shall Chaos or Reconstruction in Europe Follow the Great World War?

SOME LIGHT ON BOLSHEVISM

Movement Not Anarchistic, as So Many Seem to Think—Probably Is Best Described as "Consistent Socialism."

Article XIII.

By FRANK COMERFORD.

If I were asked to name the principal cause for the growing unrest my answer would be bolshevism. The almost universal attitude of big business toward Russian bolshevism—an attitude adopted by most of the governments of Europe—has been, and is, Kill it; don't waste time examining it; it isn't worth trying to understand; no good can come out of it; it must be fought; it isn't entitled to a trial. Reams of paper have been used to assail it. Captains of industry and government officials have vied with each other in making assault on it. Many of those who oppose bolshevism are indignant if you ask them what it is and why they oppose it. They characterize it, attack it, resent it. Great heat has been shown in discussing it, without throwing any light on the subject. Absurd lies have been told about bolshevism. Later these unnecessary and stupid lies have been exposed, with the result that suspicion has been bred, unrest fed. The effect upon the workers has been to increase their hate for their employers and destroy their already weakened faith in government.

Whether bolshevism is right or wrong, whether it is a good thing or a bad thing, it is at least a definite political plan, capable of being examined, measured, weighed and tested. It is few of the things it has been called. It is entitled to a hearing on its merits. It cannot be howled down in abuse.

Bolshevism Not Anarchy.

Those who lead the campaign against it frequently and confusingly define it as anarchy. If there is one thing that bolshevism is not, it is anarchy. Much controversy will be avoided, many differences of opinion dissolved if we come to a fair and open understanding of the bolshevik program. One of the great misfortunes is that we form opinions without information, rush to judgments without understanding, then stubbornly close our minds. Much of the discord and strife of life in big things, as well as in little matters, is due to this habit. Anarchy is not criminal lawlessness, notwithstanding the fact that this is the popular misconception of the term. Say "anarchist" and the average man or woman to whom you say it looks frightened, thinks of a bomb thrower, a dynamiter, a firebrand. Such a man is not an anarchist; he is a terrorist, a criminal, a destructionist, a murderer. Let us call a spade a spade and be sure we know what a spade is, and we will understand each other better.

Anarchism is an old and respectable philosophy. The anarchist is an individualist. He is in favor of a free life for the individual. He is opposed to turning over the individual's power to the state. He argues that great power delegated to government limits the growth and freedom of the individual. He dreams of an ideal state in which human beings will be so perfect they need no law. His doctrine is an enlargement, an exaggeration of the idea that the government which governs least governs best. He isn't a lawbreaker. He is a law abolisher. He reasons that when murder leaves the human heart there will be no occasion for laws against killing; that the statute against murder is only printed words on the page of a law book, utterly and entirely without meaning, or existence, to the man who is incapable of killing his fellow man. He says that we should develop our artistic and moral sides and by evolution gradually repeal one law after another until all law disappears. It is pure idealism—it is a movement toward perfection. It is the millennium. It is poetry. Kipling wrote its constitution when he wrote:

And only the Master shall praise us,
 And only the Master shall blame,
 And no one shall work for money,
 And no one shall work for fame,
 But each for the joy of working,
 Each in his separate star,
 Shall draw the Thing as he sees it
 For the God of Things as They Are.

Merely a Beautiful Dream.

Few people will contend that this theory is anything more than a beautiful dream. Probably the first and greatest of the anarchists was the great Greek philosopher Zeno, from Crete, the founder of the stoic philosophy, who died 270 years B. C. It is disturbing to find dynamiters called anarchists, and in the same breath hear included some of the greatest idealists that have ever trod the earth. The very mention of the two types in the same class gives respectability to the totally ugly, depraved, ignorant, lawless criminal.

I went to a standard authority for a common-sense definition of bolshevism. I was in Prague on my way up toward the bolshevik front. I spent an afternoon with President Thomas

G. Masaryk of the new Czecho-Slovakian republic. He is a Slav. He knows Russia. He was in Russia during the revolution and at the beginning of the counter-revolution which put bolshevism in the saddle. He has written of Russia and is accepted as an authority on the subject. I asked him, "What is bolshevism?" His answer was: "Bolshevism is consistent socialism."

Bolshevism is an old, untried theory of government. Its object is to secure a greater production and a more just distribution. Socialism says that men are without motive for efficient work today because they do not get a fair share of the things they produce; that the way to stimulate production is to adopt common ownership. Under such a plan, they say, every man would be working for himself, in the sense that all would be working for the state, and that as all are an equal part of the state their interests would be common and mutual. The socialist says that by working and doing as much as he could he would be helping to shorten the workday, because if all the people of the world were at work they could produce an abundance of everything necessary for the world's happiness and comfort, every one would have all he needed, no one would have more than another and it would be to the interests of each individual to work to shorten his own workday.

The program of socialism promises to destroy all private ownership. There will be no such thing as private property. No one will own land. The land, the factories, the railroads, the mines, everything, will be owned in common. The state will hold the title to everything, manage everything and distribute the product. This plan abolishes profits, rent and private capitalism.

Money and Capital.

To understand this doctrine it is necessary to clearly know the meaning of the word "Capital." Many people confuse the word "capital" with the word "money." These words have totally different meanings. Money is the metal or paper used by a government to make easy the exchange of products. Without money the world would go back to the barter system, in which the man who had corn traded it for meat, clothes, and the others things he needed. Capital is the unconsumed product of labor. In other words, all of the food, cloth, clothing, machinery, etc., in the world is its capital. Just as a man's capital is the food he has in the cupboard, the clothes he hasn't worn out, the money in the bank which represents a power to buy. It is the surplus. It is the reserve.

Plato, the great Greek philosopher, was one of the first of the socialists. In the republic of Plato we find a defense of state socialism. From Plato to Lenin men have been urging communism as a cure for the ills of the world, as a remedy for wrong, as a means of realizing exact justice.

Modern socialism dates from the "Communist Manifesto," published in 1848, by Karl Marx and Frederick Engels. Their outline of the socialist plan seized upon the thought of the world. Since that day it has been gathering the dissatisfied of the world and grouping them in a class, developing what they term a "class consciousness." Back of it has been an insistent, uninterrupted propaganda which has reached every corner of the globe. Billions of leaflets, pamphlets, tracts and books have been circulated. Millions of speeches have been made. Drawing rooms have been thrown open to it, highbrows have professed the faith, lowbrows have thundered the creed from soapboxes on the street corners. It has flourished best in Europe. It has furnished prime ministers. Its voice today in the parliaments of Europe is not a whisper—it is a shout. In the new governments which have come out of the war it is a militant, dominant factor. The bolshevism of Russia is pure socialism—literal communism. At this moment I am not writing of the methods of the bolsheviks. First, I want to make clear and simple their plan. Bolshevism is an effort to put into practice the doctrine preached by Plato, programmed by Marx.

BLOOD POISONING

Hamlin's Wizard Oil - Safe First Aid Treatment

How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut! Hamlin's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection. It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for stiff neck, sore feet, cold sores, canker sores, earache and toothache.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back. Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents Guaranteed.

The youth and beauty of Wrangell had a joyous time at the dance given Saturday night after the show by the Nut Club. This club is a new organization in Wrangell and is purely local in character. It is composed of a number of young men of the town. Ned Lemieux is Chief of the Nuts. The bachelor quarters of Lin Shields and John Gearhart are being used as the Nut House. The members are nutty enough to enjoy a good time and they left nothing undone to make the dance a success.

Jazzy music with a zip was furnished by Loren Hinton, Thor Hofstad and Toby Harthun. They were relieved by other Nuts and by Miss Ruth Lindman at various times through the evening.

Devotees of the dance will be pleased to learn that the Nuts are to give another dance Saturday night.

When Mae Edgren, the first white child to be born in Dawson arrived on the scene 21 years ago the inhabitants of that prosperous camp celebrated the advent by taking up a purse of \$400 for the infant, and placing it in the care of a local banker to be held until she was 21. The Edgrens later returned to Milwaukee. A few days ago the young lady reached the age and the gold dust was resurrected from the bank vaults and sent to her minted in nice new gold coins.
